ART**PORT**® – Carports

Entrance area & front garden

5th ROOM®

Concepts and products for your building and garden

There are many encounters with the environment around buildings for every person every day. People meet fellow human beings or enjoy the connection with nature in the garden. In Takasho's product world, these areas form the "5th ROOM" as an important part of the daily living space, alongside the living areas with kitchen, living room, dining room and bedroom.

Through the harmonious arrangement of the "5th ROOM", from the entrance area to façade and fence elements or rooms in the garden to the atmospheric lighting, all 5 senses of residents and guests are addressed. This creates an atmosphere that invites people to spend time there by day and by night and fosters a state of well-being.

Inspired by Japanese garden culture with the meaning of the seasons and the elements of wind, light, water and greenery, Takasho has developed a range of matching products for this purpose, which can be ideally combined with each other, especially in the combination of building and garden design.

Takasho supports architects, planners and end customers from the very beginning in the development of suitable harmonious overall concepts to the execution of elegant solutions.

The product series

EVER ART **WOOD**®
Laminated aluminium profiles

EVER ART **BOARD**®
Laminated aluminium composite panels

EVER **BAMBOO**®
A perfect replica of natural bamboo

THE FINEST DETAILS

Beautiful finishes created through skilled techniques and Takasho's expertise.

10-YEAR WARRANTY

1. On sudden color fading on the laminate sheet
2. On cracking of the laminate sheet

EVER ART WOOD®

The various characteristics of wood have been faithfully reproduced in aluminium. This long-lasting, weatherproof material will not corrode or fade over time, ensuring that you can enjoy its beauty for many years to come.

Expression

Beautiful wood grain and three-dimensional texture.

Processing

Sheets overlap in a single place, giving a seamless finish.

Colour

We offer a rich variety of **67** colors. You're sure to find the perfect shade for your space.

Durability

We take pride in our 20 years of strength and quality.

NATURAL TOUCH

Unlike matte-finish surfaces, this series of products features a delicately textured surface for an extremely realistic result.

KYOTO SERIES × 4 Designs

The delicately textured surface creates subtle light and shadows to produce an ambience unlike any other. Takasho has created a material with an appearance as realistic as its natural touch texture. This ideal building material resolves many issues associated with natural materials, which can decompose, corrode, or make construction difficult.

EVER ART **WOOD**® High quality laminated aluminium profiles

U-SYSTEM

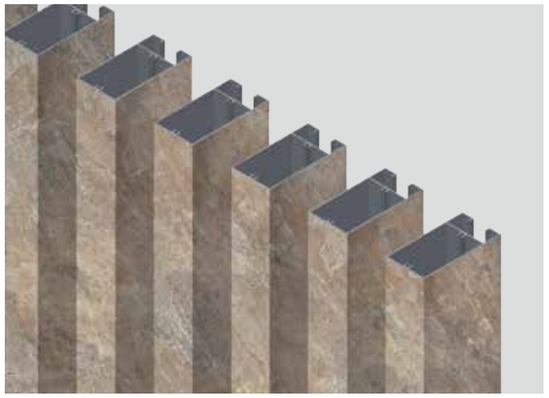

Precisely prefabricated, precisely aligned on site

The U-system creates customised façade cladding that exudes elegance and precision. The basis for this is precise production and the millimetre-precise alignment of the individual system elements on site. The large selection of profile cross-sections and decors will inspire you with their interplay of visual lightness and structural stability.
