ARTPORT® – Carports

Entrance area & front garden

5th ROOM®

Concepts and products for your building and garden

There are many encounters with the environment around buildings for every person every day. People meet fellow human beings or enjoy the connection with nature in the garden. In Takasho's product world, these areas form the „5th ROOM“ as an important part of the daily living space, alongside the living areas with kitchen, living room, dining room and bedroom.

Through the harmonious arrangement of the „5th ROOM“, from the entrance area to façade and fence elements or rooms in the garden to the atmospheric lighting, all 5 senses of residents and guests are addressed. This creates an atmosphere that invites people to

spend time there by day and by night and fosters a state of well-being.

Inspired by Japanese garden culture with the meaning of the seasons and the elements of wind, light, water and greenery, Takasho has developed a range of matching products for this purpose, which can be ideally combined with each other, especially in the combination of building and garden design.

Takasho supports architects, planners and end customers from the very beginning in the development of suitable harmonious overall concepts to the execution of elegant solutions.

The product series

- EVER ART WOOD®**
Laminated aluminium profiles
- EVER ART BOARD®**
Laminated aluminium composite panels
- EVER BAMBOO®**
A perfect replica of natural bamboo
- TAKE GAKI**
Traditional craftsmanship & premium quality
- LEDIUS**
Extra-low-voltage lighting system for garden & exterior
- ARTPORT®**
Aluminium in wood design for the carport

... offer tailor-made solutions for

- Facade, ceiling or wall claddings
- Room solutions for terraces and garden canopies
- Fences & visual protection
- Garden & outdoor lighting
- Gates, entrance areas and enclosures
- Carports
- A wide range of accessories

THE FINEST DETAILS

The beauty of expression using skilled techniques of TAKASHO experience.

10-YEAR WARRANTY

- 1. On sudden color fading on the laminate sheet
- 2. On cracking of the laminate sheet

EVER ART WOOD®

The various characteristics of wood have been faithfully reproduced in aluminum. This long-lasting, weatherproof material will not corrode or fade over time, ensuring that you can enjoy its beauty for many years to come.

Expression

Beautiful wood grain and three-dimensional texture.

Processing

Sheets overlap in a single place, giving a seamless finish.

Color

We offer a rich variety of **67** colors. You're sure to find the perfect shade for your space.

Durability

We take pride in our 20 years of strength and quality.

NATURAL TOUCH

Unlike matte-finish surfaces, this series of products features a delicately textured surface for an extremely realistic result.

KYOTO SERIES

× 4 Designs

Kyoto Kara Iro

Kyoto Kare Iro

Kyoto Kaki Cha

Kyoto Kuro Cha

The delicately textured surface creates subtle light and shadows to produce an ambience unlike any other. Takasho has created a material with an appearance as realistic as its natural touch texture. This ideal building material resolves many issues associated with natural materials, which can decompose, corrode, or make construction difficult.

EVER ART WOOD® U-SYSTEM

Precisely prefabricated, precisely aligned on site

High quality laminated
aluminum profiles

The U-system creates customised façade cladding that exudes elegance and precision. The basis for this is precise production and the millimetre-precise alignment of the individual system elements on site. The large selection of profile cross-sections and decors will inspire you with their interplay of visual lightness and structural stability.
